Introduction

Showgrounds, fairs, racetracks, and expos all require ease of setup for temporary situations as well as strength and durability. Our Competition stalls are used for events all around the world. They create a wonderful, clean look for your show while safely containing the horses. Racks are available for ease of storage and transportation. Choosing this system for temporary situations is certain to save you time and money.

- Often used as rental stalls to generate extra income at horse shows and other equine-related events
- Made to withstand regular wear and tear by horses
- Quick and easy setup, and can be stacked for easy transportation
- Hot-dipped galvanized finish with puckboard inserts
- Lightweight without sacrificing strength and durability
- Easy to clean

Includes: 10' or 12' x 7' high galvanized panel, hinged swing door with gravity latch, puckboard panels. Ten stall minimum per order.

Why Choose System Stalls?

With so many options when choosing stalls for horses, things can sometimes be confusing; at System Equine we make it easier. Whether you own a two-stall private barn or a 60-stall boarding facility, you can be assured we have a stall system to meet your needs.

Our stalls are constructed with a high level of attention to detail, excellence of craftsmanship, along with the safety of horse and owner in mind. In our welded systems (every stall series except Standard), each bar is placed through pre-punched holes in the u-channel then welded securely in place for the most durability and best look. Alternatively, sonic welds or spot welding will show depletions over time. Our enclosed round track hardware for sliding doors and heavy-duty two-way adjustable hinges with Delran bushings will keep your stall functioning and feeling smooth for years to come.

Whichever stall system you choose, you can be sure that System Equine will be with you every step of the way. Our trained staff is here to answer your questions and provide decades of experience with finding the right horse stall, stall supplies, and other equine products for your facility. Our team includes some of the most skilled horse stall designers and builders in the world, that's the System advantage.
