## Introduction

---

Ideal for barns with high ceilings, the Embleton Stall Series is distinctive for its towering design and heavy duty 2x4 stall doors. The grandeur of this design with options for swooping V openings and full grill doors creates a stunning atmosphere in any barn. The Embleton is a carefully engineered stall system including steel posts that are easily flanged to concrete, and continuous track and hardware to perform with superior functionality for years to come. This stall is available in a hot-dipped galvanized or a powder-coated finish. Choose from a large variety of options to suit your facility or give us a call if you had something else in mind.

- 8' stall door constructed of 2" x 4" steel tubing
- 4-way round track trolley system to easily guide the door
- Esthetics in mind with hidden welds where possible
- Elegant grilled swoop in door for increased socialization and ventilation
- Built to accent facilities with high ceilings
- Fully adjustable stainless steel hinges with rounded tabs to minimize injuries
- Available in both powder-coated colour or hot-dipped galvanized finishes

## Why Choose System Stalls?

---

With so many options when choosing stalls for horses, things can sometimes be confusing; at System Equine we make it easier. Whether you own a two-stall private barn or a 60-stall boarding facility, you can be assured we have a stall system to meet your needs.

Our stalls are constructed with a high level of attention to detail, excellence of craftsmanship, along with the safety of horse and owner in mind. In our welded systems (every stall series except Standard), each bar is placed through pre-punched holes in the u-channel then welded securely in place for the most durability and best look. Alternatively, sonic welds or spot welding will show depletions over time. Our enclosed round track hardware for sliding doors and heavy-duty two-way adjustable hinges with Delran bushings will keep your stall functioning and feeling smooth for years to come.

Whichever stall system you choose, you can be sure that System Equine will be with you every step of the way. Our trained staff is here to answer your questions and provide decades of experience with finding the right horse stall, stall supplies, and other equine products for your facility. Our team includes some of the most skilled horse stall designers and builders in the world, that's the System advantage.
