## Introduction

---

Our Freedom Stall Series is named for its flexibility in design. Its simplicity allows for countless customization options as part of our Free-Standing Collection can be installed with or without wood or steel posts. These exclusive stalls include an enclosed round track with easily adjustable round trolleys for a smoother rolling door for years to come. Whether you're looking for a no-nonsense stall, or are interested in adding all the bells and whistles, this stall can work for you. Available in hot-dipped galvanized or a powder-coated finish. Choose from a large variety of options to suit your facility or give us a call if you had something else in mind.

- Our most versatile stall series
- 7.5' tall one-piece panels
- Excellent option for free span buildings, drive sheds, or wide open spaces
- Easiest installation—panels pin together
- Portable or permanent (no posts required, but they can be used)
- Swing-out feed door included
- Enclosed track system

**Includes:** 7.5' high front frame including grill, grill top door with springloaded bar latch, swing-out feed door, round track assembly. Hot-dipped galvanized or powder-coated paint. Wood not included.

## Why Choose System Stalls?

---

With so many options when choosing stalls for horses, things can sometimes be confusing; at System Equine we make it easier. Whether you own a two-stall private barn or a 60-stall boarding facility, you can be assured we have a stall system to meet your needs.

Our stalls are constructed with a high level of attention to detail, excellence of craftsmanship, along with the safety of horse and owner in mind. In our welded systems (every stall series except Standard), each bar is placed through pre-punched holes in the u-channel then welded securely in place for the most durability and best look. Alternatively, sonic welds or spot welding will show depletions over time. Our enclosed round track hardware for sliding doors and heavy-duty two-way adjustable hinges with Delran bushings will keep your stall functioning and feeling smooth for years to come.

Whichever stall system you choose, you can be sure that System Equine will be with you every step of the way. Our trained staff is here to answer your questions and provide decades of experience with finding the right horse stall, stall supplies, and other equine products for your facility. Our team includes some of the most skilled horse stall designers and builders in the world, that's the System advantage.
