Introduction

Our Maverick Stall Series is magazine worthy, with an elegant presence unlike any other. Luxury comes to mind upon sight of the Maverick. Easily identified by its swooping curves, the Maverick offers your horses the option to socialize and maximize ventilation. The Maverick operates with a hinged door which incorporates the well-known Delron bushing system. This stall is available in a hot-dipped galvanized or a powder-coated finish. Choose from a large variety of options to suit your facility or give us a call if you had something else in mind.

- Pleasant twist to the traditional European stall design
- Unique swooping front looks fantastic with multiple stalls in a row, giving it a beautiful wave-like appearance
- Provides excellent ventilation
- Allows for socialization without being able to get near the next horse
- Many upgrading options available
- Fully adjustable stainless steel hinges with rounded tabs to minimize injuries
- Available in both powder-coated colour or hot-dipped galvanized finishes

Why Choose System Stalls?

With so many options when choosing stalls for horses, things can sometimes be confusing; at System Equine we make it easier. Whether you own a two-stall private barn or a 60-stall boarding facility, you can be assured we have a stall system to meet your needs.

Our stalls are constructed with a high level of attention to detail, excellence of craftsmanship, along with the safety of horse and owner in mind. In our welded systems (every stall series except Standard), each bar is placed through pre-punched holes in the u-channel then welded securely in place for the most durability and best look. Alternatively, sonic welds or spot welding will show depletions over time. Our enclosed round track hardware for sliding doors and heavy-duty two-way adjustable hinges with Delran bushings will keep your stall functioning and feeling smooth for years to come.

Whichever stall system you choose, you can be sure that System Equine will be with you every step of the way. Our trained staff is here to answer your questions and provide decades of experience with finding the right horse stall, stall supplies, and other equine products for your facility. Our team includes some of the most skilled horse stall designers and builders in the world, that's the System advantage.
