Introduction

Our Westana Stall Series is characterized by a 54" sight line and decorative flanges. It expertly combines functionality and aesthetics, making it a standout option for your barn. Installation is made easy as part of our Free-Standing Collection, and can be constructed with or without support posts. Opt for matching partitions with top and bottom flanges to complete the look. Available in a hot-dipped galvanized or powder-coated finish, this Series is ideal to achieve that elegant and sophisticated feel for your farm. Choose from a large variety of options to suit your facility or give us a call if you had something else in mind.

- Same as Freedom but with added features at an affordable price
- 7.5' tall one-piece panels
- Excellent option for free span buildings, drive sheds, or wide open spaces
- Easiest installation—panels pin together
- Portable or permanent (no posts required, but they can be used)
- Swing-out feed door included
- Enclosed track system

Includes: 7.5' high front frame including grill, grill top door with springloaded bar latch, swing-out feed door, decorative flanges, round track assembly. Hot-dipped galvanized or powder-coated paint. Wood not included.

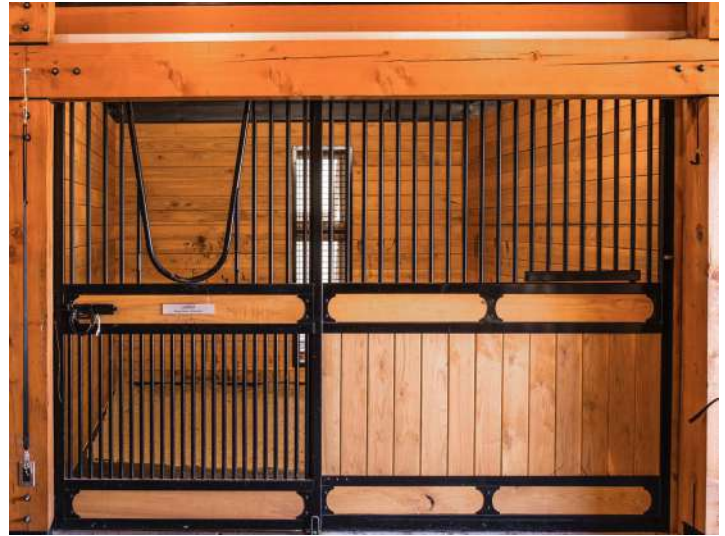

Why Choose System Stalls?

With so many options when choosing stalls for horses, things can sometimes be confusing; at System Equine we make it easier. Whether you own a two-stall private barn or a 60-stall boarding facility, you can be assured we have a stall system to meet your needs.

Our stalls are constructed with a high level of attention to detail, excellence of craftsmanship, along with the safety of horse and owner in mind. In our welded systems (every stall series except Standard), each bar is placed through pre-punched holes in the u-channel then welded securely in place for the most durability and best look. Alternatively, sonic welds or spot welding will show depletions over time. Our enclosed round track hardware for sliding doors and heavy-duty two-way adjustable hinges with Delran bushings will keep your stall functioning and feeling smooth for years to come.

Whichever stall system you choose, you can be sure that System Equine will be with you every step of the way. Our trained staff is here to answer your questions and provide decades of experience with finding the right horse stall, stall supplies, and other equine products for your facility. Our team includes some of the most skilled horse stall designers and builders in the world, that's the System advantage.

FREE-STANDING STALL COLLECTION PARTITIONS

Choosing partitions often depends on a few factors, such as the desired level of socialization between stalls, ventilation requirements, whether you require the option to change the size of your stalls as needed, and of course, personal preferences.

Grilled partitions are a great way to provide stalled horses with socialization and entertainment. They are an easy way to increase ventilation, thereby reducing the risk of respiratory issues in stalled horses. **Privacy partitions** provide all the benefits of grilled partitions, but also gives horses the option of socialization or privacy, which can be especially important during mealtimes. **Solid partitions** are often used in aisleways, in stalls housing stallions, and in quarantine barns. They are best used in well-ventilated facilities. You can also opt for a solid partition to directly eliminate defensive behaviour between stalled horses.

Includes: 90" high stall panel with a 33 1/4" high grilled social area on top. Standard length of 120" and 144" or custom sizes available.

Wood requirements (not included): 120" partition 24x @ 50.5" cut length (12x 10' 2x6 boards), 144" partition 28x @ 50.5" cut length (14x 10' 2x6 boards)

Includes: 90" high stall panel with a 33 1/4" high grilled social area on top with a solid 45" private area. Standard length of 120" and 144" or custom sizes available.

Wood requirements (not included): 120" partition 24x @ 50.5" cut length and 10x @ 32" cut length (12x 10' and 3x 12' 2x6 boards), 144" partition 28x @ 50.5" cut length and 10x @ 32" cut length (14x 10' and 3x 12' 2x6 boards)

Includes: 90" high stall panel solid to the top. Great for use in stallion areas or boarding barns. Standard length of 120" and 144" or custom sizes available.

Wood requirements (not included): 120" partition 24x @ 50.5" cut length, 24x @ 32" cut length (12x 10' and 6x 12' 2x6 boards), 144" partition 28x @ 50.5" and 10x @ 32" cut length (14x 10' and 8x 12' 2x6 boards)

Includes: 90" high stall panel solid to the top. Great for use in stallion areas or boarding barns. Standard length of 120" and 144" or custom sizes available.

Wood requirements (not included): 120" partition 24x @ 48.5" cut length, 24x @ 32" cut length (12x 10' and 6x 12' 2x6 boards), 144" partition 28x @ 48.5" and 10x @ 32" cut length (14x 10' and 8x 12' 2x6 boards)

Includes: 90" high stall panel solid to the top. Great for use in stallion areas or boarding barns. Horizontal wood cuts the cost down and makes it easy to customize length. Length of partition is determined by length of boards used.

Wood requirements (not included): 18x 2x6 boards (length is determined by the distance from the back wall to the stall front)
